Latest antivirus signatures updates every hour

MicroWorld has announced that all its customers would now be provided with the latest antivirus signatures updates every hour.

/24-7PressRelease.com/ - January 26, 2005 - MicroWorld has announced that all its customers of eScan and MailScan range of software would now be provided with the latest antivirus signatures updates every hour to protect themselves from all kinds of virus attacks.

Customers of eScan and MailScan range of software can now download the antivirus updates by the hour to protect themselves from virus attacks.

Govind Rammurthy, CEO, MicroWorld, said, "Each year that has gone by has seen an increase in the number of virus attacks. In addition to this, with the increase in the usage of the Internet, the speed at which virus attacks spread worldwide have increased by leaps and bounds.

"Our customers need to be provided with the very latest antivirus signature files in order to protect themselves from these attacks. In view of this we are now providing all our customers of eScan and MailScan range of software with the very latest antivirus signatures, which are updated every hour."

MicroWorld recently had also announced the inclusion of spyware detection and removal as an additional feature in its eScan range of software at no additional cost. Thus ensuring its customers are protected from the increasing menace of spyware going around the world.

About MicroWorld Technologies Inc.

MicroWorld Technologies Inc. is the publisher of world's first real time antivirus and content security software eScan and MailScan, for desktops and Mail Servers respectively. Headquartered in Michigan it has its development centre in India which Asia-Pacific and Europe headquarter. MicroWorld has presence in more that 74 countries today and reselling through a channel network of more than 13,000 Resellers, Distributors, Security partner and System Integrator.

MicroWorld's Revolutionary "MicroWorld-WinSock-Layer (MWL)" technology, the first of its kind in the world. It deals with these threats before they enter your network, in the same way that a firewall controls user access.

Our products, eScan and MailScan are reliable and time tested products and have been awarded some of the most prestigious awards and certificates in the internet security industry. These have been successful in fighting the epidemics like SOBIG and the recent

MyDoom attack.
