### **MicroWorld Releases eScan 10 Beta Version**

Samir Makwana, Nov 14, 2008 1547 hrs IST

Comprehensive protection against security threats

MicroWorld has released the beta version of eScan 10, an antivirus and content security program. MicroWorld claims that the new beta eScan 10 offers comprehensive protection against viruses, worms, Trojans, spyware, and other security threats. The eScan 10 beta has a built-in firewall to protect against network-based attacks.

MicroWorld claims that the eScan 10 beta version has an advanced scanning facility with heuristic scanning, which takes it a step ahead of other antivirus softwares. Additionally, eScan 10 beta sports a fresh, user-friendly GUI along with parental control/internet patrolling, antispam, antiphishing features, etc. as compared to its earlier version.

The beta version of the eScan 10 is available for download at the link below, and enthusiastic beta testers stand to win exciting prizes from MicroWorld. The feedback for the beta version can be posted on MicroWorld's forum.
