On the release of eScan 10 - Beta Version, Govind Rammurthy, CEO and managing director, MicroWorld, commented, "The IT Sector is continually at risk for malicious attacks resulting into vital requirement of modern reliable IT security solutions, and the release of eScan 10 (Beta Version) is a step forward in this direction which will definitely add great value to the field of information security."

He further said, "eScan10 (Beta Version) as compared to eScan version 9 includes a range of technical advancements which substantially enhances the software's functionality and scanning rate. Our latest IT Solution is also designed with user-friendly interface which navigates all types of users with varied level of technical knowledge. By launching eScan 10, we commit to provide our customers with the most secure IT solution against all kinds of existing and emerging security threats."

The Beta Version of eScan 10 is available for public to [download](#) now. Active Beta testers stand to win exciting prizes from MicroWorld.
