## TRC GROUP PROFILE: JUND AL SHEM

Available now: Purchase the TRC Group Profile of "Jund al Shem". Jund al Shem is Zarqawi's arm outside of Iraq and is an emerging concern to security officials. The in-depth profile is available for purchase as a secure PDF file for \$30.00 USD.  **BUY NOW** 

## Article (InfoWar) Trojan Bot Exploits Windows Vulnerability, Drops Rootkit

Posted by: moran on Sep 18 - 09:01

A network creeping Trojan itself is insidious in nature and what if it uses a Rootkit to evade detection as well... Security Experts at MicroWorld Technologies inform that a Trojan Bot is exploiting multiple Windows vulnerabilities to spread in networks, whilst using a Rootkit component to hide its files and processes.
