MicroWorld Technologies Inc., developers of the world's first real time anti-virus & content security software eScan and MailScan 4, announced today that MailScan for Linux has joined the highly regarded Novell Ready Program.

This status establishes that MicroWorld's products are compatible with Novell Enterprise Linux. The product was awarded Novell Ready status for Suse Linux desktop, Suse Linux Enterprise Server 8, Suse Linux Enterprise Server 9, Suse Linux Standard Server. Novell will now include MicroWorld's products in the list of certified applications that is given to current and potential customers, and is available at <http://www.novell.com/partnerguid>

With the increased penetration of Linux as an alternate operating system for server and desktops, attacks on Linux based machines have increased.

About 90% of the viruses today enter the organizations via Internet and through emails. The only solution is to provide content security or in a broader sense, an on demand anti-virus software solution that can be launched as and when required. MailScan for Linux answers all these needs and joining this program would certainly help MicroWorld to establish its products more competitively in the Linux market.

The intelligent product, MailScan for Linux, has been
