Description:

Sep. 27th 2005: MicroWorld Technologies, Inc., developer of Information Technology, Content Security and Communications Software announced the release of its eScan range of Anti-Virus & Content Security software products in Italian & German language.

Until now eScan was available for download in English & Spanish languages. With MicroWorld increasing market share in the European markets and to cater to the need of their products in localized languages, MicroWorld has felt it necessary to have an Italian & German versions for their existing range of software. The release of eScan in Italian & German language has been highly appreciated by its partners & resellers in Europe.

The following eScan range of products are available for download in Italian & German language;

eScan Virus Control Edition, eScan Professional Edition, eScan Internet Security Suite, eScan Corporate Edition, eScan Corporate for MailScan, eScan Anti-Virus Edition, eScan Corporate for Citrix, and eScan Enterprise for Microsoft SBS.

MicroWorld products are reliable and time tested and have been awarded some of the most prestigious awards and certificates in the internet security industry like VB 100%, Checkmark, People's Choice Security Award, Advanced CheckVir, 5 cows by TUCOWS, Best Content Security and Antivirus Software -by VAR magazine to mention a few.
