Published 3rd January 2006

When was the last time you did a complete virus scan on your computer? Don't remember? Well, in a world where new threats emerge every passing hour, a comprehensive check-up of your computer for malware is an absolute necessity. You may or may not have a security protection currently, but the new powerful MWAV 8.0, the world's best selling security toolkit, is sure to spring you some surprises! Surprises in the form of some uninvited guests waiting to spell doom for your computer. And the best part of this new version is that MicroWorld has introduced a One Year License for this toolkit utility.

MicroWorld introduces the worlds best selling security toolkit MWAV 8.x with New improved GUI for better usability and effectiveness

Powerful Spyware and Adware detection

Intelligent detection and disinfection of registry entries of Viruses, Spywares, Adwares and other malice.

Option for one year license

Great care and focus is applied to find out every new threat in the form of virus,

spyware, adware etc. The utility is consistently updated with the same immediately. In depth R&D is employed by MicroWorld, to improve the intelligence and firepower of the system, all the time.

MWAV 8.x Power Features

Scans your computer completely and provides reports of any virus, worm or Trojan found.

Checks for all illegal dialers that are present on your computer and informs you of the same.

Informs you of all spywares, adwares, key loggers etc in your computer.

The ability to make MWAV as a 'start-up' program, through the scheduled tasks list, so that it scans your computer every time you start using it.

The most updated and the largest list of known viruses and auto updating options.

No need to install. Just download and run the MWAV toolkit to scan for viruses.

MWAV 8.x also provides multi-language support, the most recent one being Chinese.

MWAV 8.x is all set to take malware scanning to all new high with its release.

You can download it at,
