[August 05, 2008]

Its 16th VB100% now for MicroWorld's eScan Internet Security Suite

MicroWorld's flagship product has won its 16th VB100% award in the latest Virus Bulletin Comparative Review of August 2008 tests, conducted on Windows XP Service Pack 3 platform. Continuing its winning streak against a gamut of Viruses and other malware, eScan has again proved its consistency in detection and removal of all kinds of Malware.

Virus Bulletin Organization based in UK, is one of the most revered testing bodies in the AntiVirus industry. VB100% Award is only given to those products that pass the stringent testing done at the Quality Assurance organization.

As per the declared results, eScan withstood the rigorous testing methodologies of VB100% and had a 100% detection record in all Malware categories with no false positives.

On this occasion Mr.Govind Rammurthy, CEO & Managing Director, MicroWorld Technologies said that, "The 16th consecutive award from Virus Bulletin has given us another reason to smile and come up with better products for our valued customers. eScan Internet Security Suite is a lot more than just an AntiVirus. It has the fastest and earliest updating system for Threat Protection coupled with real time virus and content scan engines, ensuring proactive and complete protection against all kinds of digital threats. With the existing robust features, eScan now incorporates two new power packed features, Application and USB Control that makes it the perfect pick to suit all the security needs of the users."

About MicroWorld Technologies Inc.

MicroWorld Technologies is the developer of the world's most advanced AntiVirus, Content Security, and Firewall software - eScan, MailScan, X-Spam, and eConceal. Powered by the revolutionary MWL (MicroWorld Winsock Layer) technology, MicroWorld's products have achieved numerous certifications and awards from some of the most prestigious and
